CIRCULATING THROUGHOUT THE VAST AGRICULTURAL AREA OF PALM BEACH COUNTY

Land Available For P. B. Junior College

Possibility that Palm Beach County may transfer 150 acres of land in John Prince Memorial Park as a site for a Palm Beach Junior College, was seen this week.

County Commissioner Roy Michael, who presented a resolution from the Lake Worth Chamber of Commerce, calling for the land transfer, asked that the county board go on record as willing to make the land available if it was desired by the Palm Beach County School Board.

Michael said he did not believe it the prerogative of the commission to pick out a site for the college, but felt that selection of the location should be left to the school board and the Junior College advisory committee.

Michael said that land was available in John Prince Memorial Park and that a bill had been introduced in the legislature to allow the land transfer.

Commissioner Paul Rardin, Canal Point, joined Michael in seeking approval for the land transfer, saying that he believed that within ten years' time, Palm Beach College would grow into a full four-year university. Rardin said he believed that land should be made available in the park so that the college would be convenient to all boys and girls in the county who wanted to attend the school.

A recent legislative act has made more than \$1 million available for construction of buildings for Palm Beach Junior College.

Deputy Sheriff Frank O'Connell said Scott engaged rooms at the Grassy Waters Motel at Pahokee late Tuesday afternoon for a period of two days and asked not to be disturbed.

The deputy said he and other officials were called to the motel Wednesday afternoon by Mrs. Don Hiller, the manager, when Scott failed to put in an appearance by 1 p. m.

O'Connell said "some capsules" were found in a bottle on a stand near the body, but said he would not attempt to identify the medicine.

The body was sent by Wetherington's Funeral Home Monday night to Cairo, Ga., for funeral services and burial.

Burglars Make Two Hauls In Pahokee

Two burglaries occurred in Pahokee Monday night but netted the burglars small loot, according to Police Chief Leon Guthrie.

The safe in the office of the Texas Company's bulk plant at 1216 East Main St., was cracked after entrance was gained by breaking through a door into the plant's storage room and from there by the way of a gable window into the warehouse and from the warehouse into the office by drilling holes through the wall and prying loose some wall boards. The safe yield only around \$50 in cash.

Checks totaling \$1,800 endorsed for deposit were not touched. Sheriff John Kirk, who was called out from West Palm Beach to assist in the investigation, said the safe was opened with tools.

The other burglary occurred in the office of Mayor Lewis Friend, who maintains his farming operations at the Pahokee State Farmers Market. Here thieves stole around \$20 in cash from the payroll drawer in the office after breaking through a window and prying open the locked drawer.

Cinematic Chatter

By Malcolm Millar

Hello everybody! Few actors in Hollywood can approach the record of James Gleason, (known and loved by millions as "Jimmy"), Jack of all theatrical trades and the master of most of them. I venture to say Jimmy knows more stage tricks than any other actor of our time. Well anyhow, on May 23, 1955 Gleason will celebrate his 69th birthday. On that date he will have spent exactly 68 years and 10 months on the stage and in the movies. The durable Gleason, whose familytree is liberally sprinkled with stage celebrities, came into the world in the proverbial theatre trunk in New York. William Gleason, his father, an actor and producer, and Miss Mina Crolius, his mother, a noted beauty on the New York stage, gave him first part at the age of two months. "It was a cinch for me," cracked Jimmy. "I had no part to learn and never spoke a line, yet I was the hit of the show." He literally grew up in the parental stock company until adventure and duty beckoned to service in World War I. His career since the war covers writing, directing, producing and acting. See you at the movies—Mal.

*Uncle Sam made the bonds you own
an even better bargain!*

Now your maturing Series E Bonds can earn interest 10 more years at 3%

PRESENT TREASURY REGULATIONS make it possible for you to collect a return of as much as 80% on the Series E Savings Bonds you already own!

For now those Bonds which you invested in 10 years ago can go right on earning interest for ten more years without your doing a thing about it! That is true not only of the Bonds which you have held for ten years, but any other Series E Bonds which you have invested in, in the meantime. And any Series E Bonds which you obtain now will also enjoy the extended earning period. They will start earning interest sooner and mature earlier, too, paying 3%, compounded semiannually.

The Bond you got for \$18.75 can now pay you \$33.67 . . . a \$37.50 Bond will be worth \$67.34 . . . and so on.

Of course, any Series E Bond may still be redeemed at any time after you have held it for two months. But, like any other form of saving, your Bonds will mean a great deal

more to you if you can hold on to them.

Are you one of the millions of Americans who are saving regularly with Savings Bonds through the Payroll Savings Plan? If you're not, why not start now? Invest regularly in Bonds through the Payroll Savings Plan where you work. Ask your pay office to save as little as 25¢ a week for you, or as much as you are able.

If you can save just \$5 a week regularly through the Plan, in five years you will have \$1,367.90 . . . in 9 years and 8 months, you'll have \$2,860.70 . . . and in 19 years and 8 months, \$6,972.45! This Plan is one sure way to save because it saves something out of every check before you have a chance to spend it.

So join the Payroll Savings Plan where you work today. Or, if you are self-employed, start the Bond-A-Month Plan where you bank. It's safe, it's sure, it's automatic. And you will be helping yourself and your country!

If you want to be paid
your interest as current income—
invest in 3% Series H

If you want a good, sound investment which pays you your interest by check every six months, ask at your bank about United States Government Series-H Bonds. Series H is a new current income Bond available in denominations of \$500 to \$10,000. Redemable at par after 6 months and on 30 days' notice. Matures in 9 years and 8 months and pays an average 3% interest per annum if held to maturity. Interest paid semiannually by Treasury check. Series H may be purchased at any bank, annual limit \$20,000.

Now even better! Invest more in Savings Bonds!

WHY SOUTHERN BELL CANNOT SURRENDER TO AN ARBITRATOR ITS RESPONSIBILITY FOR A VITAL PUBLIC SERVICE

For weeks now, officials of the CWA Union have been maneuvering to get the issues in the telephone strike turned over to an arbitrator for settlement.

There should be no misunderstanding about what this kind of settlement would mean.

It would mean that a third party would be called in to write a whole new union-management contract—a contract that involves every aspect of this business.

His decisions would be final and Southern Bell would be committed, in advance, to accept them, regardless of their effect on the cost and quality of telephone service—on the job security and job opportunities of telephone employees.

We Are Not Willing To Subject This Vital Public Service To So Grave A Risk.

In the telephone strike, arbitration of the whole dispute, undoubtedly, would create more problems than it would solve.

Properly Applied, Arbitration Is Often A Useful Tool

It has had an important place in our relations with the union for many years. In current bargaining, we have offered to expand its use as a means of settling Differences That Arise Under The New Contract Once It Is Signed.

In fact, practically EVERY provision of the new contract proposed by the company is subject to arbitration.

Let there be no misunderstanding then about Southern Bell's position on the PRINCIPLE of arbitration.

On the other hand, arbitration can be taken to extremes. When it is proposed, for instance, as a means for settling fundamental company policy matters—such as a whole new labor contract—it undermines the effective management of the business. It also invites serious risks that could do great harm to the financial integrity of the business.

The basic principle involved is that

Southern Bell, which is charged with the sole responsibility for telephone communications in the area it serves, cannot surrender that responsibility to others.

Our obligation for service Under The Law cannot be delegated.

In the telephone strike, arbitration would be just another form of compromise. The real issue at stake is the no-strike clause to assure continuous service to the public while the new contract is in effect. **Certainly The Public's Right To Continuous Service Should Not Be Subject To Compromise.**

Three Quarters Of Century Of Service To The South

Southern Bell has been privileged to serve the south for 75 years. It does not take lightly its responsibility for providing this necessary service.

The company pays good wages and in current bargaining has offered to make them better. The telephone pension and benefit plan long has been a model for other companies. It has been in effect since 1913.

Working conditions are second to none in all industry. We have offered many improvements in our labor contract and have accepted many union proposals.

Including all the changes we have proposed, the cost of providing telephone service would be increased by more than \$7,000,000 a year under the new contract.

We are willing to guarantee these wages and working conditions. In return, all we ask of union leaders is that they accept their responsibility for agreeing to protect the public against quickie strikes For The Life Of The Contract.

This they refuse to do on any reasonable basis. They say in effect, "We will take all you have offered and then we want an arbitrator to come in and decide how much MORE we can get." It is this attitude that is prolonging the strike.

The fact that lasting beauty is gained through spiritual understanding of God's radiance and strength will be stressed at Christian Science services Sunday.

The Lesson-Sermon entitled "Soul and Body" includes the following verse from the Bible (Psalms 96:6): "Honour and majesty before him: strength and beauty in his sanctuary."

Among the correlative passage to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy will be the following (247: 10-12, 13-15): "Beauty, as well as truth, eternal; but the beauty of material things passes away, fading and fleeting as mortal belief . . . Immortality, exempt from age or decay, has a glory of its own—the radiance of Soul".

The Golden Text is from Psalms (104:1): "Bless the Lord, O my soul. O Lord my God, thou art very great; thou art clothed with honour and majesty."

a castle in the air costs nothing —but you can't live in it!

Make your dream house come true! It's easy —through Payroll Savings!

If you think you can't own the home of your dreams because the down payment's too steep, chances are you've never tried the Payroll Savings Plan. Because this is the easy, automatic way to meet any down payment—for a house or any large purchase.

Just do this: Sign a Payroll Savings application at your pay office, naming a certain sum to be kept aside from your pay before you get it each week—a few dollars or as much as you want. After that, you're saving automatically—nothing to worry about, nothing to do. And, best of all, the money saved out of your pay each week is automatically invested for you in U. S. Series E Savings Bonds. Because Savings Bonds earn solid interest—3% cumulative continuously, when held to maturity

—the few dollars saved from your pay each week soon grow into big generous amounts. For instance, if you sign for \$12.50 a week, in just five years you'll have \$3,346.95 cash. In 9 years, 8 months, you'll have \$7,217.20!

So don't let down payments get you down. Meet your needs for ready cash the way more than 2 million other Americans are meeting theirs—join the Payroll Savings Plan today. Or, if you're self-employed, invest in Bonds regularly where you bank. Start now to make your dreams come true!

* * *

If you want your interest or current income, ask your bank about Series H Bonds, which pay interest semi-annually by Treasury check.

Choose your own savings goal:

	If you want approximately:	\$5,000	\$10,000	\$25,000
Bank cash for 5 years and 6 months, now.....	\$4.00	\$16.75	\$40.00	
Bank cash for 10 years and 6 months, now.....	\$0.75	\$7.50	\$18.75	

This chart shows only a few typical examples of savings goals and how to meet them. Payroll Savings Bonds can be used to meet any goal you wish, from a sum of dollars payable up to as much as you need. The important thing is, start your Plan today!

Certificates for completing the Gulf Stream Council's training course for Scout commissioners were received by Floyd Rider and Henry Spelman, III, of Belle Glade, and Robert McIntosh and E. K. Carver of Pahokee.

District Commissioner King in a brief talk pointed to the remarkable progress made by Pahokee Troop 28 since it was reactivated in February of this year as an example of what happens when "people get behind Scouting and make it effective." He announced that the next Glades District Court of Honor of the Gulf Stream Council, BSA, will be held at Clewiston, Sept. 26.

Following the court session, humorous skits were presented by members of Troops 22 and 28. Approximately 60 visitors were present.

Goodwill Industries Helps The Destitute

ST. PETERSBURG—It is doubtful if any organization in Florida is doing more for the destitute and handicapped than Goodwill Industries. In St. Petersburg along the organization found jobs for 37 persons of which only three were not physically handicapped. Economic aid was provided to many others who through no fault of their own found themselves in need of help.

Dr. Robert C. Adair, executive director of the organization, has done a fine job in publicizing the work of Goodwill Industries and in aiding those who are really in need.
